

# Saturday Academy: Focus on Fine Arts

*The fine arts domain of the Pre-K guidelines focuses on teaching art, music, and dramatic skills. These are the very skills that help children develop oral language, problem solving strategies, and cognitive abilities. As young learners explore and actively engage in the fine arts, their physical development and social emotional competencies are also enhanced.*

*Please join us to explore strategies that support children's interests and inquiry into a variety of fine arts experiences.*

## REGISTRATION

[CLICK HERE TO REGISTER](http://www.prek4sapd.com)

## DESCRIPTION

**Participants who attend the series will be able to:**

- Understand the benefits of fine arts skills for children's development and learning
- Identify elements that need to be in place for the successful creation of child self-exploration opportunities
- Purposefully plan for enhancing the classroom setting with authentic material for fine arts integration
